1. EDUCATION

2012- present Bachelor student in biological sciences at Universidade Federal de Santa Catarina, Brazil.

2. PROFILE

I am a undergraduate student of biological science studying the diet and feeding behavior of *Chromis limbata*, an exotic reef fish specie in Santa Catarina state (Fig1). I am also working on the restauration and maintenance of the Ichthyological Collection of Universidade Federal de Santa Catarina (UFSC).

Figure 1 - **A:** Stomach content analyses of *Chromis limbata*; **B:** *Chromis limbata*. (Photo by Nuno Vasco Rodrigues).

3. MAIN AIMS

I intend to better understand the influence of biogeographic barriers on distribution patterns and evolution of reef fishes.

4. OTHER RELEVANT INFORMATION

Languages:

Portuguese (native language),
English (basic reading, listening, speaking and writing).

Dive qualifications: PADI Open Water Scuba Diver.

Scientific experience: Snorkeling on costal rocky reefs and dive in the Arvoredo island.

5. FIELDWORK EXPERIENCE

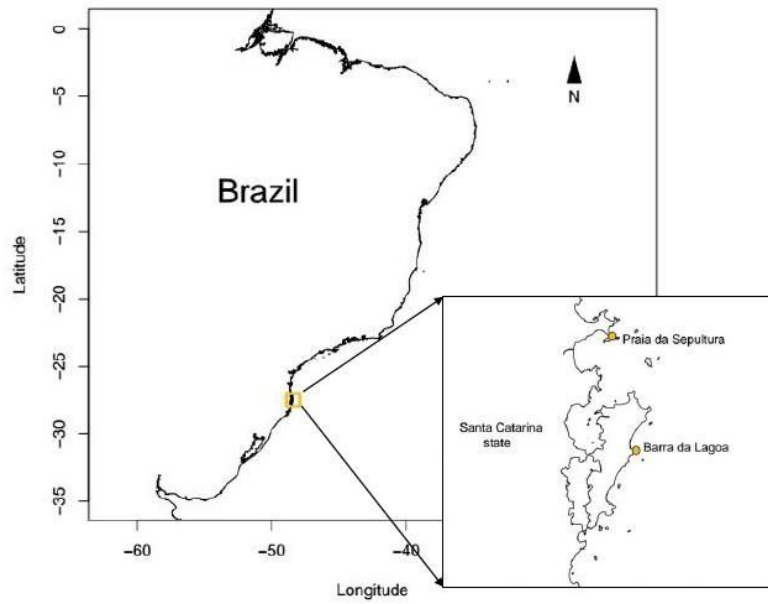

Figure 2 - Snorkeling experiences along Santa Catarina state coast, and diving experience in the Arvoredo island
