 Florianópolis, Santa Catarina - Brazil

EDUCATION

2022 - present Bachelor's student in Biological Sciences at Santa Catarina Federal University (UFSC), Brazil.

PROFILE

I grew up in Florianópolis, an island in the south of Brazil, which contributed to my fascination about marine environments. As an undergrad student, I took part in a range of activities before joining the Marine Biogeography and Macroecology Laboratory (LBMM), under Dr. Sergio Floeter's supervision, in which I develop my bachelor's thesis about the communities structure of different biotopes distributed along a depth gradient, in Arvoredo Marine Biological Reserve. In addition to my degree, I work as a wildlife camera operator and cinematographer, adventure and outdoor activities photographer and PADI Divemaster.

EXPERIENCE

Working experience:

PADI Divemaster and UW photographer, Água Viva Mergulho and Ciliares

Vertical Techniques photographer. Vertical Life 8

Scholarships:

2023 – 2024 Scientific Initiation Program at **Quality Software Group (GQS/CTC)**

"Development of a Venomous Animals Classification app in the context of Computation teaching in basic education".
